MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: SE-34, "Consequences of an Attempt to Overthrow the Present Regime in Albania"

BACKGROUND

1. This estimate was requested by the Deputy Director/Plans and its production approved by the IAC on 20 November 1952.
2. A unique feature of the production process was that all agency contributions were made orally. The experiment was sufficiently successful to warrant repetition in similar cases.
3. At the request of the representative of the DD/P and with Board concurrence, special security precautions were taken during the preparation of this estimate. In view of the clear implication that this paper may have an operational significance, I recommend a very restricted distribution.

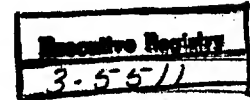

SUBSTANCE

4. As far as we know, all agencies are in agreement on the present text. We therefore anticipate no difficulty with the estimate at the IAC meeting. 25X1A
